DINNER IS GIVEN CHARLES MACDONALD

New "Ginger Group" May Be Formed in House of Commons

Exclusive to Bulletin
OTTAWA, Jan. 18.—Parliament is sitting on the brink of a political volcano that at any moment may break into eruption. Even though the nineteen Progressives who voted with the Liberals on Friday morning have sought in an understanding with the government that tranquility be maintained, the situation is not a posthumous of the inevitable.

While practically every member of every group in the House is opposed to another general election this year, no one believes it can be avoided longer than June unless there is a definite parliamentary alignment of the Progressives with the Liberals or with the Conservatives.

Macdonald's Group
An interesting event of the week-end was a dinner given Saturday night by the Saskatchewan Liberals to Charles Macdonald, who has given up his seat for the Progressives, among those who attended the function were the Hon. J. H. Macdonald and M. N. Campbell, one of the Saskatchewan Progressives who voted with the Conservatives last Friday.

These five may form themselves into a "ginger" group. This new group would be "ginger" because the Progressives as a whole previously went too far, while the "ginger" group of last season grew out of their protest that the Progressives did not go far enough.

The Best is None too Good!

The Edmonton Exhibition Association has a grand opportunity to stage its greatest Exhibition and Stampede this year. Last year established the fact that the Edmonton Stampede and Exhibition need not take second place to any summer entertainment in Canada, and 1926 is Alberta's year and Edmonton's year.

The Province of Alberta becomes of age this year. Edmonton, as capital, celebrated its twenty-first birthday a few days ago. Why not stage a genuine birthday celebration this summer? Edmonton has more reason to stage a real birthday celebration for its citizens and country cousins than any other city in Canada.

With a successful business year just closed; with Alberta's greatest wheat crop on route to the world's markets; with increased immigration certain, and with the dawn of progress and prosperity already showing on the horizon, Edmonton has every reason to celebrate.

Last year's Stampede was a wonderful success, both from an entertainment and financial point of view, and this in face of stiff opposition from certain interested quarters.

If Stampede are good for Calgary, New Westminster, Vancouver and other progressive cities, then Stampede are good for Edmonton—the greatest city in the Last Great West. The day of the old-fashioned exhibition is over. Edmonton must move forward with the times, and the Edmonton Exhibition Board must keep pace with the march of events or citizens of Edmonton must be prepared to scrap their half-million dollar investment in the second best exhibition grounds in all Canada.

Special Bulletin Cable
BERLIN, Jan. 18.—An explosion of benzene in the basement of a soap factory in this city resulted in the death of nine persons and serious injury to scores of others. The death list, it is expected, will be materially increased when the debris has been cleared away by firemen and volunteer rescue parties. The cause of the explosion is at present unknown but already a rigid investigation has been launched.

Later reports said that a number of women and children were missing and it was feared they were among the dead.
